

## **GP Publication of Earnings**

*All GP practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.*

*The average pay for GPs working in the Bourne Galletly Practice for the financial year, ending 30<sup>th</sup> June 2014 was £101,895 before tax and National Insurance. This is for 5 full time GPs and 1 part time GP who worked in the practice for more than six months.*

*However it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice and should not be used to form any judgement about GP earnings or to make any comparison with any other practice.*
